MEN WORKED NINE HOURS ON SALEM COURT HOUSE

Building Inspector Sheehan
Prefers Charges Against
Woodbury & Leighton.

SALEM, July 25.—State Building Inspector Sheehan of the state police has been ordered by District Attorney Woodbury to prosecute the firm of Woodbury & Leighton, contractors, of No. 106 Beaverton street, Boston, for compelling laborers employed by them on the Essex County court house building in this city to work nine hours a day.

This is the first case where laborers have been ordered by the state police to work more than eight hours a day in this city. The case will be tried at the next term of court.

In the meantime Woodbury & Leighton had the great contract to build the city court house costing \$250,000. The scheme was his plan of having the men work nine hours a day, and he was allowed to work more than eight hours a day. The state police have been in excavating ground for the foundation all night the previous night. Strange to say, it was granted.

Unions Demand Prosecution.

The men are now working nine hours a day, violating at least the eight-hour law. Whether or not it is a violation of the law is not the question. The question is whether the men are to be allowed to work nine hours a day. The unions have been fighting for the eight-hour law, and are demanding that the state police should enforce it. The work is being done mostly by foreigners. The work of the men can be done in eight hours, and that is what the unions want. I. F. Woodbury.

No One's Business.

The undersigned, request that I be allowed to work more than eight hours a day on the new Essex County court house, Mass. The above is held good until countermanded by the undersigned.
